Is the Hair Art & Mobile Salon Advertising Program the Best way to Advertise?

Well, let's take a look at how this program works and if it is the Best...

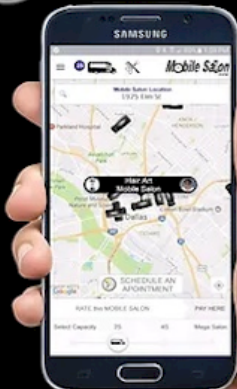

Whom does this program reach? We here at the Hair Art & Mobile Salon NETWORK have a reach that touches every age, every color, and every sex. This is because we employ a diverse group of stylists to service the customers. If they have hair, then we can take care of them. BLACK, WHITE, YOUNG, OLD, MALE, FEMALE, AND EVERYTHING IN BETWEEN...

Is this new form of advertising effective? Well, when you consider the fact that we can go where normal advertising Can't go. We have Hair Art Design Advertising on real people's heads. Those are "Walking, Talking Billboards". They can go into any building or location or events where normal advertising can't go... Even our Mobile Salons are able to get into locations and events because we do the hair of the people attending the event or going into that location. That's Awesome!

Why is this advertising package worth \$100,000? Now that question can be answered simply by saying, TIME... Despite the fact that you are getting a multitude of different items that are included in the advertising package deal like Hair Art Design Advertising Haircuts, Ads on our Hair Art TV Channel, Ads in our Hair Art Magazine, Advertising Spots in our Shows, Events & Website, and of course, a fully customized Mobile Salon Bus and vehicle wrap advertising your BRAND.
